PROFESSIONAL SUMMARY

Computer Engineering student specialising in Cloud Systems, with hands-on experience in virtualisation, Linux, Windows Server, networking and security labs, and currently studying AWS. Eager to contribute across infrastructure, cloud and cybersecurity to keep production systems reliable and secure. Seeking an internship from 15 Mar to 13 Aug 2027.

EDUCATION

Singapore Polytechnic, Singapore *April 2025 – April 2028 (expected)*

Diploma in Computer Engineering — Specialisation in Cloud Systems

- **Relevant coursework:** Cloud Foundations, Linux Essentials, Computer Networking, LAN Switching & Wireless, Server Management, ML/AI with Python

Guarantee International College, Yangon, Myanmar *July 2023 – November 2024*

Cambridge IGCSE

- **Grades:** 4 A* & 1 A — Computer Science (A*), ICT (A*), Mathematics (A*), Physics (A*), Additional Mathematics (A)

PROJECTS

BusGuard (Hackathon) — *Singapore BusTech Grand Challenge 2026 · 1st Runner-Up* *June – October 2026*

- Passenger-assistance system for driverless buses, built by a team of five; led networking and system integration.
- Streamed a Bosch IP camera over RTSP; linked camera AI, passenger app, buttons and 3D digital twin via MQTT.
- Designed fail-safe handling for frozen video and duplicate messages, so the bus waits instead of guessing.
- **Impact:** Lets remote operators spot and assist passengers with special needs, with no staff on board.
- **Tech stack:** MQTT, RTSP, Bosch IP camera, offline private network

Windows Server Domain (School Project) — *Server Management · Team of four* *July 2026*

- Built the file, storage and web server (DC2) in a Windows Server 2025 Active Directory domain on VMware.
- Set up RAID-5, NTFS-secured department shares, GPO drive maps, FSRM quotas and a PowerShell home-folder script.
- Hosted HTTPS sites on IIS with AD CS certificates (fixed SAN errors via certreq) and deployed Work Folders sync.
- **Impact:** Gave staff secure, centralised file storage with quota control and remote file sync.
- **Tech stack:** Windows Server 2025, AD DS, AD CS, IIS, FSRM, Group Policy, PowerShell, VMware

Multi-Site Company Network (School Project) — *Computer Networking · Individual work* *August 2026*

- Designed a VLSM address plan from a single /24, with every office sized for 100% growth.
- Configured 7 Cisco routers: multi-area OSPF (3 areas), DR/BDR priorities, custom timers, static and default routes.
- Added a backup border router, HSRP failover and an extended-ACL firewall; 0% packet loss with the main router down.
- **Impact:** Keeps every office online if the main border router fails.
- **Tech stack:** Cisco IOS, OSPF, HSRP, extended ACLs, VLSM, Packet Tracer

Proxmox Homelab (Side Project) *Ongoing*

- Self-hosted Proxmox VE 9.2 on a mini PC (64 GB RAM), with remote access over Tailscale and no open ports.
- Built an isolated security lab with a Parrot Security VM for safe penetration-testing practice.
- **Impact:** An always-on lab to practise Linux and security safely, reachable from anywhere.
- **Tech stack:** Proxmox VE, LXC, Linux, Tailscale

CERTIFICATIONS & COURSES

- Introduction to Networking — NVIDIA (Oct 2026)
- AI for Essential Digital Skills — AI Singapore (Sep 2026)
- Introduction to Cybersecurity — Cisco Networking Academy (Sep 2026)
- Red Hat System Administration I (RH124) — Red Hat (Aug 2026)
- Currently preparing for RHCSA, CCNA and AWS SAA-C03

TECHNICAL SKILLS

Cloud (AWS): IAM, EC2, S3, VPC, Route 53 (studying towards SAA-C03)
Virtualisation: Proxmox VE, LXC, VMware
Linux: RHEL / Ubuntu / Debian, Bash scripting, SSH & key authentication, systemd
Windows: Windows Server, Active Directory, Group Policy, PowerShell, IIS, AD CS (PKI), FSRM, RAID
Networking: TCP/IP, VLSM subnetting, OSPF, HSRP, ACLs, VLANs, DNS / DHCP, Cisco IOS, MQTT, RTSP, Tailscale
Tools & languages: Python, C++, Git, Cisco Packet Tracer

VOLUNTEERING

KSUG.AI — KubeSmart & AI User Group — *Community Volunteer & Event Assistant* *Dec 2025 – Mar 2026*

- Created LinkedIn event posts and helped run on-site meetups on AI and cloud-native topics.
